Guidelines

Include Gitcoin Community badges in all Gitcoin DAO digital products as a clear call to action to show connection to the Gitcoin community. Gitcoin community badges are available in varying sizes and colors to help you reinforce that your product is backed by a broader audience.

- Choose any color badge from the palette
- Place Gitcoin DAO badge in the footer (center, left or right align)
- Link to [Gitcoin.co](https://gitcoin.co)
- Gitcoin DAO badge is to be used standalone, do not place the badge next to other logos
- Please do not modify the badge in any way

Questions? Please ask in the MMM design lab-channel!

Example

Tip Party

by MOONSHOT COLLECTIVE

Send tips to multiple members of your community at once with a Tip Party.

Launch App

How It Works

1

Create a Tip Room

2

Invite people to join your Tip Room

3

Let the Tip party begin!

FAQs

Why did you build TipParty?

The Moonshot Collective built it because we wanted to use it ourselves. We have many community members from across the Ethereum ecosystem, and wanted a universal way to reward engagement in the Collective.

I want to use TipParty for my own community, is that cool?

Yes absolutely, please go ahead. After you do, let us know what you think.

Where does the D1ETH to become a distributor go? Why would I want to pay that?

You can host your own TipParty once you pay the D1ETH fee! All funding goes to funding public goods on Bitcoin Grants.

How can I get in touch?

Join our telegram [here](#).
